PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate and aspiring Data Engineer with hands-on experience in building scalable ETL pipelines and cloud-based data automation. Proficient in Python, SQL, and Apache Airflow, with practical expertise in AWS and Docker to contribute to efficient data infrastructure and processing workflows.

TECHNICAL SKILLS

- **Languages:** Python (Pandas, NumPy), SQL, Java, C.
- **Big Data & Streaming:** Apache Spark, Apache Kafka, Apache Airflow, ETL/ELT Pipelines.
- **Cloud & Warehousing:** Snowflake, AWS (S3, Lambda, IAM), Google Cloud Platform (BigQuery, GCS, Cloud Composer).
- **Databases:** PostgreSQL, MySQL, Google BigQuery.
- **DevOps & Tools:** Docker, Git/GitHub, Linux (Shell Scripting), VS Code, Jupyter.
- **Core Competencies:** Data Structures & Algorithms (DSA), Database Normalization, API Integration.

PROFESSIONAL EXPERIENCE

Celebal Technologies

Data Engineer Intern

Jaipur, India

May 2025 – Aug 2025

- Orchestrated enterprise-scale ETL workflows using Apache Spark and Snowflake to process large-scale enterprise data.
- Integrated Apache Kafka for real-time data streaming and message queuing within production data pipelines.
- Applied Data Warehousing concepts to optimize table schemas and improve query performance.

TECHNICAL PROJECTS

Modular Retail Data Mart Framework | Python, PySpark, AWS S3, SQL, Parquet

- Engineered a multi-environment pipeline (Dev/QA/Prod) with modular components for ingestion and storage based on a structured directory system.
- Built Spark transformation jobs to join dimension and fact tables, generating optimized Sales and Customer Data Marts.
- Developed utility layers for S3 client handling, custom logging, and secure data encryption/decryption.

Spotify End-to-End Data Pipeline | Python, SQL, AWS, Airflow, Docker

- Engineered an automated ETL pipeline using Apache Airflow to extract Spotify API data and load JSON data into PostgreSQL.
- Deployed the workflow in Docker containers and integrated AWS S3 for scalable raw data archiving.

EDUCATION

Gaya College of Engineering, Gaya

2027

- Bachelor of Technology in Computer Science and Engineering.

Government Senior Secondary School, Deha (Balson)

(2022–2024)

- Completed Higher Secondary Education.

CERTIFICATIONS

Data Structures and Algorithms (DSA) – Parakh Certification Program (2024–2025)

CLA: Programming Essentials in C – Cisco Networking Academy (2023-2024)

ACHIEVEMENTS & INTERESTS

- **Competitive Programming:** Regular participant in LeetCode Weekly Contests, achieving a maximum rating of 1606.

Awarded one 100-day badge and two 50-day badges.

- **Open Source:** Active contributor to data-focused open-source repositories on GitHub.
- **Strategy:** Avid Chess player, utilizing strategic thinking to enhance problem-solving capabilities.
